**TOSHIBA**  
Don't copy. Lead.

Introducing the revolutionary e-Bridge hardware platform.  
One board. One design. An infinite number of advantages.

*"Small to medium-sized workgroups looking for modular features, expandability and reduced hardware costs will find the efficient e-STUDIO350 ideal for their needs."*

Built on Toshiba's proprietary e-Bridge hardware platform, the e-STUDIO350 raises the digital multifunction device to a new level of efficiency. One that only Toshiba could achieve. Using a single board, e-Bridge's all-in-one architecture seamlessly integrates copy, print, scan, fax and other networking capabilities. It works smarter, giving you lower hardware costs, better features and enhanced functionality.

**Bigger screen. Bolder graphics. Easier to use.**

When we doubled the size of the e-STUDIO350's touch screen, we didn't just make it bigger, we made it better. Its simplified controls and bold icons make it remarkably easy to use. It's the kind of improvement you've come to expect from Toshiba.

**PRINT**

No stand-alone printer offers more features or the ability to work across a wide variety of platforms and network protocols.

**e-FILING**

Need to scan or store documents? New e-Filing offers 200 private user boxes and 1 public box.

**SCAN**

The e-STUDIO350 offers Scan-to-File, Scan-to-Email and Scan-to-e-Filing, and boasts a fast scanning speed of 45 originals per minute.

**COPY**

Advanced copy features offer versatile paper handling options, while pre-set templates and job reservations increase productivity.

**FAX**

The e-STUDIO350's control panel changes to basic fax operations while storing up to 1,000 fax numbers in its address book.

With an output of 35 pages per minute, no one will doubt the speed of the e-STUDIO350.

But that's just the beginning of a long list of benefits. With its **innovative new e-Bridge**

**hardware** platform, this remarkable device is internet-ready, mobile-wireless ready and solution-ready. Its networking capability is engineered deep into the core design.

Which means multifunction products

**integrate seamlessly with your existing business**

document workflows and

IT infrastructures. Put simply, this device's unified design controls multiple functions and processes information more efficiently

than ever

before. And

because it's

proprietary, our e-Bridge architecture means the **economy, productivity, and quality** you've come to expect from

Toshiba is now only available from **Toshiba**.
