Office System bizhub C350

Reinvent your office workflow.

The essentials of imaging
Streamline your workflow

The bizhub C350 is the one-stop solution for all your office imaging needs. Whether you are thinking about replacing your old black & white copier or purchasing a colour printer – look no further. With the bizhub C350 you get a multifunctional device that acts as the imaging control centre in your office network. Regardless of whether printing in colour or black & white, copying, scanning or emailing, it takes care of every job – quickly, reliably and with a quality second to none.

Cutting-edge printing technology ensures superb colour and black & white output – while b&w printing comes at a very affordable "click price" [price per page]. Today’s office departments need full functionality and the bizhub C350 meets this demand. Featuring a controller as standard, it offers copying, printing and scanning in one. Ready to meet future demands, this model offers high b&w capabilities and delivers superior colour output without any limitation in volume or quality. As the central hub for your office team, it is always close at hand. Its advanced network and security features guarantee a smooth workflow and maximum security. Discover the benefits of bizhub work – test the bizhub C350.

The future of office networking.

Innovative concept

This future-proof, network-ready all-in-one solution for copying, printing and scanning delivers fantastic colour and affordable black & white documents.
First class productivity
Cutting-edge technology ensures not only first-class but also high-speed output, while at the same time offering great media flexibility and various finishing options.

Perfect networking & security
Enjoy easy administration, secure user access and cost control via web browser as well as tight integration into the existing office network.

Global communication
A centre for easy scanning in all network directions and straight to email, FTP, iFax, or to the C350’s hard disk. Use the ADF to scan double sided documents automatically.
bizhub C350, Office System

Quality and productivity

Guaranteed to catch your attention, the bizhub C350 delivers high-quality output that increases the lasting productivity of your office. The secret behind the stunning results is proven Konica Minolta technology. This combines a third generation colour engine and polymerised toner. By using particles of a very small size and avoiding fuser oil, the special toner enables superior detail reproduction.

With the bizhub C350, quality plus speed is now a viable combination. Thanks to its tandem transfer-belt technology, printing is exceedingly fast, in colour, b&w and even in duplex mode. You also gain great media flexibility – various paper sizes and weights can be used – and high stability. And when it comes to black & white, this system can compete with digital b&w machines.

The key to optimised efficiency.

Paper management and finishing

The bizhub C350 does much more than single devices and you benefit from this amazing versatility. Besides sorting, punching and stapling, there is a finisher mode for complete booklet creation. It also gives you the freedom to work with a wide range of paper types – from postcard-sized A6 sheets for sending in mailings to the A3 full-bleed format for layouting creations. Even paper up to 256 g/m² intended for business cards or report covers, for example, flows smoothly through this high-performance model. And don’t think the bizhub C350 is just for regular paper. You can use it to produce all the material for your information distribution, such as CD and address labels and envelopes.
**Efficient networking**

Total network integration is one of the key advantages of the bizhub C350. The PageScope network utility and a standard web browser let the machine’s performance be monitored and administration settings entered – without installing extra software. Personal accounts may also be created for users to save and manage their copy, print and scan files. System administrators can allocate permission to use the copy, print and scan functions for colour and b&w printing respectively and establish volume limits. This not only prevents unauthorised use but also helps control costs. In addition, the enhanced degree of transparency allows more accurate accounting and project billing.

The booklet finisher offers a wide range of finishing options: sorting, stapling, punching, folding and complete booklet production.
A new look at versitivity.

Your office communicator

The bizhub C350 allows scanning in all network directions centrally and easily. For example, you may attach scans directly to an email and send it from the bizhub C350 to colleagues or clients – without having to return to your computer. By allowing the direct uploading of scans to an FTP server, this model presents a very efficient way of sharing the scanned documents with your team. When it comes to archiving, the workflow is significantly enhanced by the ADF, which allows up to 100 sheets to be scanned on both sides in one run. Great time-savings are additionally enabled through the integrated hard drive. Scans saved here can be effortlessly and quickly combined with copy or print jobs later on as well as transferred to the PC.

However, if you want to use a scanned image immediately, no problem. Thanks to TWAIN compatibility, the files may be imported straight to image editing or layout applications. And the possibilities don’t stop there. The bizhub C350 transmits scans via iFax to fax receivers and receives them too. Selecting the preferred file format – PDF, JPEG, TIFF – or programming the device to automatically save all the scans of a single job in one PDF file is easy with the control panel. Last but not least, a total of 2,040 email addresses and 60 different scan receiver groups may be stored or searched in and retrieved from your email database via LDAP [Lightweight Directory Access Protocol]. As a result, you can effortlessly forward the scans to the most important recipients or groups directly from the bizhub C350.
High security

Even though the bizhub C350 is so deeply integrated in your workflow and network, Konica Minolta has made sure this tremendous freedom does not come at the price of security. Support of the Windows Active Directory means scanning access is only granted after the Windows user name and password have been correctly entered. Because the bizhub C350 meets the latest ISO 15408 EAL3 security standards, customer’s files are always safe from prying eyes and the network is secure. The security features included are:

- password-protected copying, printing and scanning access
- secure print functionality
- network SSL encryption
- password-protection for data on the integrated hard disk
- automatic memory erase function

The control centre for all your imaging operations, the bizhub C350 combines the advantages of full network integration with high productivity and top quality. Colour or black & white, copying, printing or scanning – it is all you need.
### Technical specifications

#### Copier specifications

**Copying system**
- Tandem type, indirect electrophotographic

**1st copy**
- Colour: 12.9 sec. (A4 crosswise)
- Mono: 6.8 sec. (A4 crosswise)

**Copy speed A4**
- Colour: up to 22 copies/min.
- Mono: up to 35 copies/min.

**Copy resolution**
- Max. 600 x 600 dpi

**Gradations**
- 256 gradations

**Magnification**
- 25% - 400% in 0.1% steps

**Copy features**
- Colour adjustment, test print, creative functions, booklet creator, department control, DIP interchanging, photo mode

**Multiple copy**
- 1-999, countdown, interruption mode

**Copy memory**
- Max. 512 MB

**Copy HDD**
- 40 GB (optional)

**Copy memory**
- Max. 512 MB

**Copy resolution**
- Max. 600 x 600 dpi

**Gradations**
- 256 gradations

**Magnification**
- 25% - 400% in 0.1% steps

**Copy features**
- Colour adjustment, test print, creative functions, booklet creator, department control, DIP interchanging, photo mode

**Multiple copy**
- 1-999, countdown, interruption mode

**Copy memory**
- Max. 512 MB

**Copy HDD**
- 40 GB (optional)

**Copy features**
- Colour adjustment, test print, creative functions, booklet creator, department control, DIP interchanging, photo mode

**Multiple copy**
- 1-999, countdown, interruption mode

**Copy memory**
- Max. 512 MB

**Copy HDD**
- 40 GB (optional)

**Print memory**
- Max. 768 MB shared with copier

**Print memory**
- Max. 768 MB shared with copier (optional)

**Print speed A4**
- Colour up to 22 copies/min.
- Mono up to 35 copies/min.

**Print speed A3**
- Colour up to 11 copies/min.
- Mono up to 17 copies/min.

**Print resolution**
- Max. 600 x 1,800 dpi

**Page description language**
- PCL 5c, PostScript 3

**Interface**
- IEEE1284, 10/100Base-T

**Print memory**
- Max. 768 MB shared with copier

**Print memory**
- Max. 768 MB shared with copier (optional)

**Print speed A4**
- Colour up to 22 copies/min.
- Mono up to 35 copies/min.

**Print speed A3**
- Colour up to 11 copies/min.
- Mono up to 17 copies/min.

**Print resolution**
- Max. 600 x 1,800 dpi

**Page description language**
- PCL 6c, PostScript 3

**Interface**
- IEEE1284, 10/100Base-T

**Print memory**
- 256 MB

**Print memory**
- 10 GB

**Operating system**
- Windows 95/98/ NT4.0/ 2000/ 2003/ Me/ XP, Mac OS 8.5.1 or higher

**Network utilities**
- Spooler, DocBuilder, Command WorkStation, WebTools, FreeForm, PageScopeWebConnection

**System specifications**

**Automatic document feeder (optional)**
- 100 sheets

**Original Size**
- A5 to A3

**Paper input capacity**
- Standard: 900 sheets
- Max.: 3,400 sheets

**Sheet bypass**
- Multi-copy tray: 150 sheets

**Debit capacity**
- Max.: 50,000 sheets

**Finishing mode**
- Bypassing, booklet creator, booklets, booklet creator

**Scan resolution**
- Max. 600 x 600 dpi

**Scan modes**
- TWAIN scan, Scan-to-FTP, Scan-to-HDD, Scan-to-IVB, Scan-to-FAX

**Network specifications**

**Scannerspecifications**

**Scan speed**
- Up to 20 scans/min.

**Scan resolution**
- Max. 600 x 800 dpi

**Network utilities**
- PageScope WebConnection, PageScope Net Care, Scan Box Utility, address book utility

**System specifications**

**Automatic document feeder (optional)**
- 100 sheets

**Original Size**
- A3 to A3

**Paper input capacity**
- Standard: 900 sheets
- Max.: 3,400 sheets

**Sheet bypass**
- Multi-copy tray: 150 sheets

**Debit capacity**
- Max.: 50,000 sheets

**Finishing mode**
- Bypassing, booklet creator

**Copy/Print volume**
- Recommended: 35,000
- Max.: 60,000

**Warm-up time**
- Less than 90 sec.

**System dimensions (WxDxH,mm)**
- 903 x 730 x 770

**System weight**
- Approx. 110 kg

---

All specifications relating to paper capacity refer to A4-sized paper of 80 g/m² quality.

All specifications relating to scanning, copying or printing speeds refer to A4-sized paper that is scanned, copied or printed crosswise in multipage, simplex mode.

The memory capacities listed refer to A4-sized paper with the toner coverage detailed in the respective footnote.

Some of the production devices contain optional accessories.

Konica Minolta does not warrant that any prices or specifications mentioned will be error-free.
